

CELEBRATING 15 YEARS OF LEARNING

The Rediscovery of Learning

Every year, for the last 15 years, a spectacular group of people from all over the world and from every area of healthcare have come together to **exchange ideas** on how to push the envelope of medical simulation to improve learning, competency and ultimately, save lives. HPSN is where the **brightest and best leaders**, educators, innovators and thinkers in healthcare education gather each year to make **meaningful connections**, for **hands-on learning**, to **share tales of innovation**, and to preview the latest simulation technology in an intimate, immersive setting.

At HPSN2011, you'll find yourself in the company of the **doers, makers and thinkers** of medical simulation. Let your mind travel a world of ideas in a variety of **learning opportunities**, whether it's specialized training courses, immersive sessions, round-table discussions or lectures. After the sessions, engage with other passionate attendees in critical discussion and problem solving. Here, you'll meet people like you – people who share your vision of integrating medical simulation to enhance learning and patient care.

And best of all - it's FREE
Join us February 22 - 24, 2011

what attendees say

"What's very cool about this conference is you not only have researchers and practitioners but all kinds of educators who come together in a spirit of sharing."

Dr. Vicky Elfrink - Ohio State University

"I came to a Pre-conference course and it was excellent! I'm ready to go back and do what I need to do."

Major Michelle Mandy - U.S. Airforce

"Very educational and very inspirational!"

Dr. Po-Yu Lu - Taichung Veteran's General Hospital

"We have a lot of friends here at HPSN that we've reconnected with. It's a good time."

Tom LeMaster - Cincinnati Children's Hospital

"It's nice to see the broad interdisciplinary applications of simulation from surgery to nursing, paramedic and allied health professionals using validated simulation to improve their learning and training."

Kent Van Sickle, MD - University of Texas Health Care Center

"We've been coming to HPSN for years and we've learned a lot – from how to build a simulation center to how to write scenarios. I think the 'pay it forward' concept is what HPSN is all about."

Mark Goldstein - Florida Atlantic University

The Rediscovery of Learning

- Choose from over 100 concurrent sessions about using simulation in healthcare
- Attend FREE Training Courses to advance your knowledge and expertise
- Attend Keynote Sessions by industry leaders
- Preview the latest innovations in the product and technology showcase
- Attend Regional and Special Interest Group meetings
- Earn CEU credits

HPSN2011 is for Everyone

Whether you're a nurse, physician, military or civilian medic, or respiratory therapist, if you have an interest in medical simulation and want to learn more or share your experiences, HPSN is the best conference for you to attend this year.

And, you don't need to be a METI simulation user. HPSN is for everyone who believes that simulation is the future of healthcare education.

The First Annual METI Awards

Does your school or institution have what it takes to be voted "Best Simulator User Video" in the new METI Awards?

The METI family of users is an extraordinary and passionate group of individuals from all levels of healthcare and every corner of the globe, dedicated to pushing the envelope of medical simulation and helping to save lives. The METI's is the first international awards event dedicated to honoring excellence in medical simulation and providing a forum for METI users to show their simulator in action and be recognized by their peers.

Taking part in the METI's is simple. Send us a video of you, your group or institution using your METI simulator via YouTube and we'll add it to the METI Awards YouTube Channel. Vote for your video, or any submitted video and the most popular videos will be honored with a METI Award. For contest rules, prizes and more information visit hpsn.com.
